Experience	Digital Media
Technologies	React, TypeScript, React Native, JavaScript, Node.js, CSS, C#, .NET

## Work experience

### Head of Engineering, FX Digital 🏢

Dec 2021 – Present (1y 11m)

Digital Media

React   TypeScript   React Native   JavaScript   Node.js

- Orchestrated development of TV applications utilized by hundreds of thousands of customers internationally.
- Provided direction and training to a technical team in a hybrid setting, evaluating their progress.
- Collaborated with clients and technical architects to define the optimal approach for new projects.

### JavaScript Developer, FX Digital 🏢

May 2019 – Dec 2021 (2y 7m)

Digital Media

React   TypeScript   React Native   JavaScript

- Engineered TV applications with high performance on low-spec devices leveraging in-house and open-source frameworks.
- Collaborated in an Agile environment to deliver solutions for design, product and QA departments.
- Created efficient in-house frameworks to power responsive interactive applications.

### Junior Full Stack Developer, Geeks Ltd 🏢

Jul 2017 – Apr 2019 (1y 9m)

CSS   JavaScript   C#   .NET

- Enhanced clients' operations through customised software development.
- Facilitated workshops to upskill QA engineers and advance their coding ability.
- Constructed features that meet designs, user stories and business objectives.

# Education

## University of the West of England

Sep 2014 – Jun 2017 (2y 9m)

Undergraduate (1st) Audio and Music Technology BSc

- Focused on programming for Audio Applications using C++.
- Developed a system that improved the sound quality of a surround sound system in a room by locating the user and adjusting "moving" the sweet spot to their location.
- Participated in different societies such as Centre for the Performing Arts and Peer Assisted Learning.
- Was awarded with the "UWE Futures Award"
